

Excellent Piano Installs®

We recommend - **ad a player** - based on:

PianoDisc® PRODIGY II

***The latest intelligent, invisible player system
Now with expanded dynamics and emotional expression.
Realistic Key Release and Improved Softer Playback.***

Your iPad can play your piano!

It's never been easier, more convenient or impressive to operate a grand piano or an upright piano with player system. You can operate the ideally balanced package simply from your sofa, from behind the bar or from a hotel reception desk.

Good reasons to choose ad a player based on PianoDisc PRODIGY II:

- You choose the piano, which should become a self-playing piano.
- The biggest music selection! Over 5000 titles from the PianoDisc music library and also music of other companies can be used.
- Runs for hours without operation. Ideal also for hotels, bars and restaurants.
- Expandable, and always adaptable to the latest technology without the need for buying a new piano.
